

FIRST FERTILITY BABY BORN AT LORMA

The Ilocos Times (May 30-June 5, 2011), *The Amianan Tribune* (June 4-10, 2011)
Baguio Midland Courier (June 12, 2011), *The STAR NL* (June 6-12, 2011)

Published with permission of Engr. Dave Delizo & Engr. Maria Monina Paquidao-Delizo

SAN FERNANDO CITY, LA UNION— After eight long years of praying, waiting and hoping, Engr. Dave Delizo and Engr. Maria Monina Paquidao-Delizo had their dream come true. The couple has been blessed with a healthy 7.15 pound baby boy on May 12th, 2011.

Baby Miguel Francisco Delizo is the first baby born at Lorma Medical Center through the help of Lorma's Fertility Center. To celebrate this joyous event, Mrs. Delizo received a bouquet of flowers, a tray of fruits and was accommodated in the special Lorma Maharlika suite. A team from the Nursing, Marketing, together with Pastor Brennus Paragas, serenaded the mother as she delightedly held the best gift of all.

Mr. and Mrs. Delizo, now proud parents, could not wait to show the world their baby on Facebook! What seemed to be impossible a year ago had now happened. They are grateful to Dr. Bill Cooper, the US-based consultant and fertility expert, and the medical team of Lorma Christian Fertility Center, headed by Dr. Sharon Marie Galia-Marcial, for making their dream a reality.
